American Bullfrog (eggs)	100	Yes	No	No
	0	No	No	No
	0	No	No	No
	0	No	No	No

Collection Method:

Hand Capture	Hand Capture	Euthanasia
Tail Snip	Temporary Hold in Captivity	

Counties Authorized:

Benton	Lane
Clackamas	Linn
Columbia	Marion

Conditions of Permit:

- 1) This permit does not authorize the capture or collection of state or federal Threatened or Endangered species (Oregon Spotted Frog).
- 2) Take measures to minimize disturbance and negative impacts to sensitive habitats during project activities.
- 3) Disinfect hands and field equipment before and after use at each project site to prevent disease transmission. Implement the standard "Hygiene Protocol for Control of Disease Transmission Between Amphibian Study Sites" (USGS 2018) or equivalent protocol.
- 4) Any animal captured with obvious lesions or other sign of disease is to be reported, collected and transferred to ODFW's Wildlife Health and Population Lab (866-968-2600 or wildlife.health@odfw.oregon.gov) or other ODFW-approved laboratory within 24 hours.
- 5) Captured non-native wildlife (e.g., American bullfrog) may not be released back into the wild, kept alive in captivity or relocated to a new site. Final disposition of all non-native species captured must be humane euthanasia, following AVMA Guidelines for the Euthanasia of Animals (2020 edition).
- 6) Wildlife authorized to be taken and removed from the wild shall be held in captivity in accordance with ODFW regulations (OAR 635-044-0500). Collected specimens are to be housed at OSU, Corvallis facilities only. Collected specimens may not be released back into the wild. Upon completion of the study, collected specimens are to be humanely euthanized.
- 7) Collected specimens remain the property of the State of Oregon and cannot be sold, traded or given to others without authorization by ODFW.
- 8) All captures, observations and mortalities are to be reported on the annual scientific taking report. Include life stages captured, observed, or collected for each specimen.
- 9) 2022 scientific take results are to be recorded on ODFW's standard report form and submitted by January 30, 2023. Permit renewal will not occur until the 2022 report has been received and approved by ODFW.
- 10) Submit copy of research findings and publications to ODFW Wildlife Division -Wildlife Permits staff.

Sub-permittees: None provided

Nicole Stuttgen, ODFW
